Sweet survival/battle rifle and functional piece of history. This Norinco SKS has a 3-9 Nikon scout scope and modernized stock and pistol grip. Firing 7.62x39, the rifle is darn accurate, soft shooting and supremely reliable! SKSs are said to be reliable as the AK-47 yet better-built! Recoil is nil, trigger is surprisingly smooth and the rifle just feels great! The safety is also really nice. Would make a great survival rifle, "sidekick gun" or range shooter. Wanted: Looking for broken, beat, damaged, incomplete firearms or parts kits. I am learning the gunsmithing trade, and I am looking for anything cheap to practice on. In my area all the fun gun shops have closed down, the places with back rooms filled with junk guns. so now I am asking my fellow citizens of Maine! Nothing is to rusted and ruined for my interest. Please be reasonable with the prices; but otherwise if you have something in the back of the safe that you are afraid your friends might see, let me take that off your hands! \$500.00 OBO 207-768-8839 Fort Fairfield, ME
